

## Flashcards

The following pages contain flashcards containing vocabulary words for Incredible Edibles.

### Directions:

- Cut out the outer perimeter of the flashcards
- Cut on the line between the different vocabulary words
- Fold the flashcard in half so that the word is on the front and definition is on the back
- Optional: apply glue on the inside of the flashcard so they do not flap open

## Renewable Resource

Natural resources that can be used repeatedly and **does not run out** because it is naturally constantly replaced.

Examples: trees, solar energy and wind energy.

## Biodiversity

The variety of plant and animal life in the world or in a particular habitat.

## Sustainable

Good for the environment and can be done long term.

## Nutrition

Nutrition is the study of food and how it works in your body.

## **Traceable**

You can track where the animal/food has been.

## **Affordable**

inexpensive;  
reasonably priced.

## **Quality**

The standard of something is extremely high.

## **Food production**

A process, in which raw materials are cooked or combined.
